PERSONAL PROJECTS

Online Bus Ticket System in C (01/2018 - 04/2018)

- This project developed by using C

Realstate(django) (01/2020 - 04/2020)

- This project is all about a proper website for house listing management. where any one can buy properties related thing and this system provide such thing.

We Can(Django) (03/2021 - Present)

- Due to the corona (Covid-19) pandemic we have been locked to ourselves for too long. In such a situation we cannot reach out to the rich people of the society to help the helpless and destitute around us. On the other hand, donors are not able to donate to us. To solve this problem, we need a virtual environment to help each other

ORGANIZATIONS

DIU Django Community, DIU (08/2019 - 04/2020)

Web Dev Bootcamp, CDC (10/2020 - Present)
